Coffee and Calculus

With only two in last period Grade 12 Calculus and Vectors on a Friday afternoon, Dr. J and her student, Hailey, moved their studies to a local coffee shop nearby, Show and Tell. They enjoyed a new learning environment while hitting the books. This change of scenery allowed Dr. J and Hailey to connect outside of the classroom, while also enjoying a well-deserved coffee break. Calculus in a cafe was a positive end to the school week!

Elora Creperie

A huge positive to having small class sizes is the opportunity for experiential learning outside of the classroom. Ms Daminato's Grade 11/12 French class decided they wanted a field trip. During their "Environment and Travel" unit, they decided to head to Elora to an authentic French Creperie for lunch. Ms D enjoyed a savory crepes filled with cheese, mushrooms, egg, tomatoes, while of course the 3 girls all elected to get sweet crepes-- mmm Nutella and whipped cream! The ambiance made for great conversation, and the unexpected spring snowfall made for a picturesque drive to the quaint town of Elora. They will be using this experience to write a small "Restaurant Review" for class.

Blyth Waterloo Can Swim, Run and Spin!

We may be small, but we're mighty! On Wednesday April 4th, James B. and Peter J., accompanied by Mr. Shillingford, went to Toronto to compete in the Blyth Triathlon. The two swam, ran and spun their afternoons away! There were just under 60 competitors in all, ranging in abilities and

experience, from other Blyth campuses as well as many nearby private schools. Both James and Peter finished in the top half of the athletes and we're so proud of them for representing us at this event !

Visitors from China

Blyth Academy Waterloo welcomed a group of our partners from China on Thursday, April 5. We began our day at the University of Waterloo with a general campus tour and a tour of the Mathematics/CS buildings. Our tour was excellent and thorough and our visitors enjoyed learning more about Waterloo. We headed back to Blyth Academy Waterloo where our students

and staff had a brief opportunity to meet our visitors. Xudong's ability to speak mandarin with them was a big plus and Evan filmed a short video about why he enjoys learning at Blyth.

Our Chinese visitors were very impressed the University in general as well as with our campus, staff and students. They were frankly, a bit "star struck", took lots of pictures, asked lots of questions and left Waterloo with a very positive impression. I really appreciate everyone working so hard to accommodate us.
